

*The Reference Code
for EI Applications
for **June 2018**
school-related
intake:*

**No longer - required
effective 2018
summer period**

Recent modernization and transformation of the EI application process and enhancements to internal work tools have enabled the same quality of service to be offered to applicants without the use of a reference code. Processing delays attributed to lost or incorrect reference codes will no longer occur, ensuring clients receive more consistent services for all types of EI benefits.
