

September 21, 2021

To: Toronto Education Workers/Local 4400 Members,

Toronto Education Workers/Local 4400 has filed grievances under each of its Collective Agreements, challenging the TDSB disclosure and mandatory vaccination policies. These grievances will be processed pursuant to the collective agreements, and if they cannot be resolved they will be referred to arbitration.

We have received numerous complaints and requests that the Union challenge these policies, but this has already been done.

We will update the Membership on the status of these disputes as they progress.

In Solidarity,

John Weatherup  
President
